

PERSONAL INFORMATION

Gopi Battineni

 Via Madonna Delle Carceri 9, 62032 Camerino (Italy)

 (+39)3331728206

 gopi.battineni@unicam.it

 Skype gopi.battineni

Sex Male | Date of birth 25/5/1991 | Nationality Indian

POSITION

Full time researcher

WORK EXPERIENCE

5 Jun 2012–10 Oct 2013

College / university teaching professional

JNT University, Kakinada (India)

Develop professional logistics to improvise student performance.
Guide, lead and mentor students in research projects.
Evaluate, monitor and mentor student academic progress.
Create, innovate and implement career-enhancement programs and activities.
Supervise and support teaching assistants.

4 Nov 2013–7 Aug 2014

Computer programmer

Yantra Software, Hyderabad (India)

1 Apr 2017–30 Jul 2017

Computer systems analyst

University of Della Marche, Ancona (Italy)

We were worked on specify why process mining helps to improve the organizational efficiency and indicate performance indicators on case studies which determined by my supervisor. It is in particular to integrate our respective approaches, my work mainly Experimental few coding activities. It means, getting some data describing sequences of operations like a typical event log generated by some information system, pre-processing them and use algorithms to extract paths that represent the general process executed by people, information about time, duration and other insights. More or less it mainly concentrated on the generated process model and found out the where data was deviating from the model by tools Prom Lite or Disco

EDUCATION AND TRAINING

10 Apr 2018–Present

Researcher

EQF level 8

University of Camerino, Camerino (Italy)

Current Project: Design an Artificial Intelligence (AI) System to assist seafarers health

12 Sep 2016–11 Oct 2017

International masters in Enterprise Engineering

EQF level 7

University of Bordeaux, Bordeaux (France)

Subjects Involved:

Data Mining, MRP II, GRAI, Enterprise Modeling and Industrial Engineering

1 Sep 2014–30 Jun 2016

M.Sc. Enterprise System Professional

EQF level 7

Sheffield Hallam University, Sheffield (United Kingdom)

Core Modules:

Project Management, Web Services, Data Base Management and ERP methods

Thesis Title:

Opportunities of Indian companies by implementing ERP systems (Case Study: TATA manufacturing)

Brief Synopsis of Research: Companies want to integrate their business operations in an organized manner. Integrated services can provide organized management of the business. Thus ERP System provides efficiency to the industry. It can reduce the cost and time of business operations. This is the reason TATA international has established ERP System for the purpose to integrate their business activities in an organized manner. This conducted research is based on the importance of ERP systems in real time market companies. Our research presents opportunities of the implementation of the ERP System in multinational companies. TATA international has used as a case study.

1 Aug 2008–30 Apr 2012

B.E. Electronics and Communication Engineering

EQF level 6

JNT University, Kakinada (India)

Modules Included: Java, C, C++, Data bases and Mat Lab.

Group Project: Recognition of Vehicle Number Plate Using MATLAB

Brief Description of Project: This approach presents a method for detecting and identifying the vehicle number plate for the detection of authorized and unauthorized vehicles. These the project implements two methods namely plate location extraction and plate characters segmentation

PERSONAL SKILLS

Mother tongue(s) Telugu

Foreign language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C1
IELTS (6.5) -2014					
French	C1	B2	A2	A2	B2
Italian	C2	C2	B2	B2	C1
Hindi	C2	C2	C2	C2	C2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages - Self-assessment grid

Communication skills

1. Efficient speaker
2. Ability to Accept Feedback with Grace
3. Active Listener

Organisational / managerial skills

- Project Management Using Agile
- Business Process Mining
- Knowledge of research methodologies
- ERP systems

Job-related skills

- GRAI, BPMN, and Disco tools
- Extensive Knowledge on machine learning techniques
- Data analysis software: extensive experience with ATLAS and CAD tools
- Worked as project lead at degree level
- Programming Languages: C, JAVA eclipse, SQL,Python and HTML

Digital skills

SELF-ASSESSMENT				
Information processing	Communication	Content creation	Safety	Problem-solving
Proficient user	Proficient user	Proficient user	Proficient user	Proficient user

Digital skills - Self-assessment grid

Applications: Microsoft Office Suite
 Have lead several seminars for Internet Explorer
 Paint Shop Pro, Dreamweaver and several e-mails packages.
